

# *TOGETHER FOR EVERYONE*

# 1 MÅSØY MUNICIPALITY'S CHILD AND YOUTH AND CULTURE SERVICES

---

Interdisciplinary and holistic efforts are essential to child and youth and culture services. To achieve this, one must be familiar with the services available and know when, where, and in what way one can seek advice, guidance and cooperation in specific cases.

This information folder is designed to provide a complete overview of interdisciplinary meeting places and programs for children and young people in Måsøy. The descriptions primarily include programs and services under municipal auspices; some programs and services have also been included that are under the auspices of the specialist health service, the voluntary sector, and others.

The goal of creating such an overview is to make it easier for parents and guardians, and employees in kindergartens, schools, care services and other players, to find out what services are available in Måsøy. A description has been given of which players offer the various programs and services. As far as possible, it is also stated how to apply, or receive an administrative decision on the various programs and services, and how to get in touch.

## 1.1 THE INFORMATION FOLDER IS ORGANISED AS FOLLOWS:

**Part 2** lists programs and services for children and young people under the auspices of Måsøy municipality for the age group infants and toddlers up to the youth group.

**Part 3** contains a description of interdisciplinary collaborative arenas, both regular meeting points and meetings that can be arranged for individual children or young people. In Måsøy municipality, the district pedagogical-psychological service (PPD) has an inter-municipal cooperation with Porsanger. The child welfare service is engaged in a host municipality cooperation with Hammerfest municipality.

**Part 4** is a non-comprehensive overview of services provided by the voluntary sector and other regional and national players.

<b>2.2 THE CHILD WELFARE SERVICE</b>	
Who are we?	The child welfare service in Hammerfest is responsible for child welfare services in the municipalities of Hammerfest and Måsøy.  The child welfare service shall help ensure that children and young people have safe conditions in which to grow up. The service aims to ensure that children and adolescents living in conditions that could harm their health and development receive the necessary help and care
What do we offer?	The child welfare service shall:  *Contribute to providing individual children with good living conditions and development opportunities through advice, guidance and assistance measures.  * Make sure that children's interests are also safeguarded by other public bodies. This entails cooperation with other sectors and levels of public administration when this can contribute to meeting the duties to which they are obliged fulfil by law.  * Always first assess whether it is possible to help the child / family in the home with the help of preventive measures, such as advice and guidance, support contact / visiting home for the child, support for leisure activities, assist in providing a place in kindergarten or SFO (the before and after school program).  It is only if preventive measures do not help the situation that it may be appropriate to place the child outside the home. Placement outside the home can be carried out with the consent of the guardians as an assistance measure, or by the child welfare service assuming care of the child. A transfer of care only takes place in very special instances, and there must therefore be weighty grounds before a care order is made.
Target group?	Children and young people under the age of 18 and their families. If necessary and when the child consents, the child welfare service can provide services up to the age of 23.

### 3 DESCRIPTION OF INTERDISCIPLINARY COLLABORATIVE ARENAS

#### 3.1 INDIVIDUAL PLAN (IP)

Persons who need long-term, complex and coordinated health and care services, services from the child welfare service or NAV, have the right to have an individual plan drawn up. The plan should only be drawn up if the person wishes to do so. It shall describe what needs a person has for different services at a certain time and how these needs shall be met in the best possible way. The plan shall also look ahead and describe long-term goals for the person concerned. It shall be continuously updated and be a dynamic tool in coordinating and targeting the services provided. When a child or adolescent has been granted an application for an IP, they are also delegated an IP coordinator.

[Individual plan incl. application form](#)

#### 3.2 THE STATE CHILDREN'S HOUSE

The State Children's House is service provided to children and adolescents who may have been subjected to or witnessed violence or sexual abuse, or in case of suspected female genital mutilation or forced marriage. The offer is also for adults with intellectual disabilities. Adapted police interviews, medical examination and treatment/follow-up are offered collectively under one roof. The assistance provided in the children's houses shall be holistic, coordinated and equal to the extent possible, and based on the needs of the target group. Counsellors and psychologists at the children's house have expertise in several areas, and offer:

- Surveys and follow-up after adapted police interviews
- Take note of any follow-up needs for children/adolescents, and establish a continuous chain of measures
- Professional knowledge about mental health in children
- Expertise in risk assessments of young people with harmful sexual behaviour

Interdisciplinary consultation is offered via conference calls, video meetings or by the party seeking advice meeting the consultation team at the Children's House in Tromsø. The consultation team has regular meetings on Wednesdays from 12:00 to 15:30. The cases shall be anonymous.

The consultation team can only provide advice/guidance and cannot intervene or assume responsibility for the cases.
